

Second Screening Day Added!

UT Mobile Mammography Unit will provide screenings on
UTK Campus in Circle Park

Monday, June 28, 2021

9am - 4pm - Appointment is required

Criteria for Screening Mammogram:

- Age 40+
- No current breast problems (such as lump, pain, nipple discharge, burning)
- No personal history of breast cancer
- Must be able to climb stairs independently
- At least one year since your last screening mammogram
- Inform us if you have breast implants (will take 2 appointment times)

Participants should wait to schedule screenings 4 to 6 weeks after any COVID-19 vaccine shot

A side effect of the vaccine can be swollen lymph nodes, which can result in recalling for diagnostic testing.

Due to Covid, the MMU is taking extra precautions:

- Only patients can come on mobile unit
- Patient must wear a face covering such as a cloth face mask, medical mask, scarf, or gaiter
- Temperatures will be checked
- Additional Covid screening questions

Insurance is filed for each participant.
